

Reaching the Rukwa

Ted and Kim Rabenold ministry update

October 20, 2011

Greetings!

We had a great time visiting the people and preaching today in Kikwale village market place. I went this week with Pastors Eliamu and Mapelele. We were encouraged by the interest level the people had for the Gospel. It was obvious the Holy Spirit was working by the looks on their faces! We preached from Isaiah 59, Philippians 2, Genesis 6, 1 John 1, and 1 Timothy 2. The preaching focused on man's sinfulness and the kindness of God in sending His son as a humble sacrifice to be our mediator! No matter if you are in the Rukwa Valley or Manhattan NY, the message is the same. ***Thanks for your prayers for the Thursday outreach program!***

During our outreach to Kikwale village we saw these two little kids breaking open a nut from a Borassus palm tree to chew on. It is amazing what you would consider edible if you were a kid in rural Africa.

Many of you know about Savannah's dog being killed by a puff adder (hemotoxic snake) last year. Well, she is stoked about her new pup which we have named Kleinboy after a famous South African Hottentot tracker. It is just a village pup but we are expecting great things from it! Notice both of them looking off in the distance thinking of new lands that they will conquer.

Love,

Ted, Kim and Savy
